CR architecture + design opened a regional office in Seattle, WA. In keeping with CR's plan for geographic growth and expansion, the Seattle office is the fourth CR location. Headquartered in Cincinnati and with regional offices in Denver, CO and Dallas, TX, CR decided to extend its capabilities into the Seattle market in order to better serve the firm's current national clients. The new office also provides greater visibility for the firm to new and prospective clients, allowing CR to better serve the Pacific Northwest region of the U.S.

CR was founded in 1982, and is an architecture firm specialized in commercial, hospitality, housing, retail, education and government design. CR delivers architectural, engineering, branding and interior design services nationwide to transform ordinary spaces into extraordinary places.

"This new office is in keeping with our program for growth and profitability and it is all made possible by the team that executes our plan," says David Arends, President and CEO of CR.
